

Field Day 2020

The Corona Virus adaptations

The Club, KOSI, did set up operations at the Rock Bridge State Park, without inviting the public this year. The rain held off for the most part.

K0PHP operated from his KOMU-TV truck while K0PSD (new ham) operates the second station from the CMRA Tent. Note the truck's 40 ft mass deployed, and the ladder line feed to N0AXZ's G5RV above the tent.

N0SSM operates CW
QRP from his garage
with his portable
antenna deployed
out in the yard.

AA0B and NO0I operated QRP from Roy's garage.

WD6BGN operates QRP on solar power from Howard County

WOTES operates from his driveway with solar power and HF vertical in the driveway.

KC0EZE and KE0BJL operate from EZE's deck with a little help from their friends, who apparently just had a dip in the pool.

There were others operating FD from their homes:
known were: AD0ZE, W0ZH, W0RAG, ACOMP.
It will be interesting to see our official club aggregated
points score this year.

Let's hope that FD
2021 will have a
crowd like this again!
